## ABOUT RSMC AND KRATZER’S DEER PARTNERSHIP

Rising Spring Meat Co.(RSMC) is happy to partner with Kratzer’s Deer Processing again for the 2019 Hunting Season. Here’s how it works:

- Drop off deer at RSMC
  - During or after hours drop off ok
  - It is strongly preferred that the deer are gutted and skin is on
  - If harvested in CWD area, spine must be completely removed prior to leaving zone (see <https://www.pgc.pa.gov/Wildlife/Wildlife-RelatedDiseases/Pages/ChronicWastingDisease.aspx>)
- Transport between RSMC and Kratzer’s is managed by E. Kratzer
- Kratzer’s processes your deer and transports it back to RSMC
- Customers pick up deer at RSMC
- All payments are made directly to Kratzer’s
- Kratzer’s and RSMC both work with Hunters Sharing the Harvest (<https://sharedeer.org/>)

You might ask why we do this vs. processing on our own. RSMC is a USDA inspected slaughterhouse which means that any non-USDA work (hunted deer fall into this category) has to be scheduled carefully to mix with our USDA work. Due to our size and schedule, it is difficult to balance both streams of work. Not to mention, most of the deer processing is after hours and while the extra work, contacts and money are nice, our team going home to rest helps to keep them charged and energized for our primary work. This arrangement has worked well for us.
